To our Valued Customers, March 15, 2021: COVID-19 UPDATE

The long anticipation of distributing the vaccine has started to be dispersed in many part parts of Ontario and the rest of Canada. As more people receive the vaccine the hope is that people can begin to realize some sort of normalcy this year.

At Mitchell Enterprises we continue to operate with safety protocols still in place. The supply chain that we use remains mostly unaffected and there have been minimal shipping delays of the receiving and shipping of product.

To our Valued Customers, June 21, 2020: COVID-19 UPDATE

Here, in Ontario, the government has extended its State of Emergency until June 30, 2020. Some orders have taken slightly longer to fulfill due to the ongoing government restrictions. However, things are progressing relatively well and the impact from delivery companies has been minimal, In some cases a one or two delay in deliveries.

We continue to keep up with our cleaning protocols and all orders have a minimum of several days of non-human touch to minimize any chance of transfer.
